

TESTIMONIES: Career Development

After a 10-year work experience as Export Sales Manager, I couldn't go further without a boost to my career thinking that an extensive programme in management would provide me with a very global view of business. The RMS Full-Time International MBA indeed provides you with fundamentals such as Finance, Strategy, HR Management, Marketing ... at a high academic level.

The diversity of RMS IMBA participants coming from all over the world creates an outstanding cross-cultural learning environment. I particularly appreciate the strong dynamic that comes from group work- designed to bring out the leadership potential of all the members.

No sooner had I finished this rewarding programme that I was offered the opportunity to create an affiliated company in Singapore for a French group in the field of Robotics.
