Study tour : EMBA 8 in China

For their third study tour "Business strategy in China", EMBA students were in Beijing from September 11th to 15th accompanied by Svetlana Serdukov .

Professor Li Yong explained about the Chinese environment and how to approach Chinese people when doing business with them. Students worked on a study case "Michelin in China" and visited the Company LENOVO. The practical understanding of Business in China was completed by the contribution of the Marketing Manager of Schneider Electric and two French consultants working in China in order to facilitate French businessmen to enter the market.

The strategy understanding comes along with learning of the context and culture. The group visited the Forbidden City and the Summer Palace, the Chinese version of Versailles. They also went to the Great Wall that runs along some 6000 km.
